

# **DARK CAVE**

**the aged tsipouro - the classic Greek distillate**

**Over 5 years aged in barrels**

## **DARK CAVE**

*DARK CAVE, an aged tsipouro made from a freshly fermented grape pomace of high quality grapes from Thessaly. It is slowly and patiently distilled in small discontinuous copper stills (alambics) to preserve its fresh and sweet aromas.*

*The ageing process takes place at least five years in selected French and American oak bariques used previously to age red and sweet Vinsanto wines.*

*This distillate has a variety of mellowed aromas, such as raisins, prunes, and bergamot peels, and spicy aromas such as vanilla, chocolate, and nutmeg combined in a robust but supple body that results in a smooth finish and fine aromatic aftertaste.*

---

*Thessaly is the most famous Greek region for the production of tsipouro and grape spirits. In the semi-mountainous and arid hillsides, from the edge of Pindos to the foot of Mt. Olympus, grape production especially the Hamburg Muscat variety thrives.*
